

RAINBOW SHADE

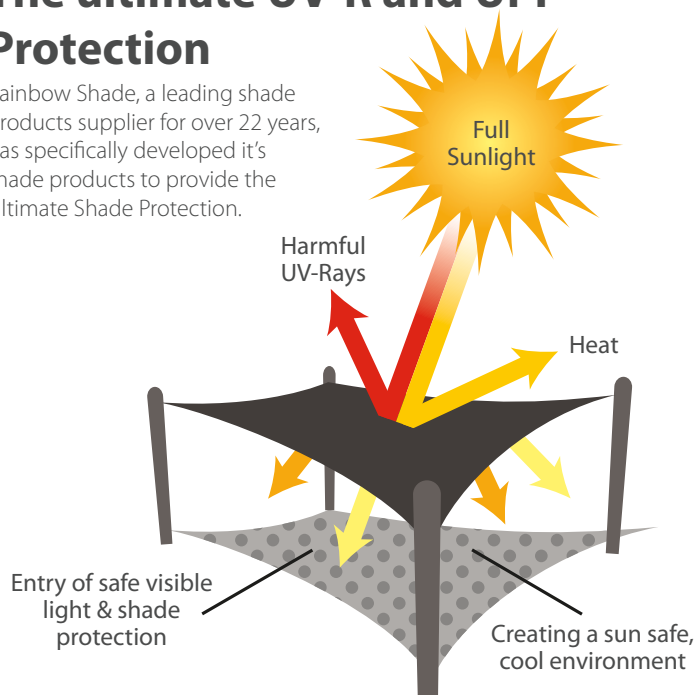

Protection

Councils, schools, early learning centres, architects and other establishments are faced with the challenge of providing the best Sun Protection materials, in order to create sunsafe environments and keep pace with relevant regulations, building codes and Australian Standards.

Rainbow Shade make the decision easy, providing top rated Sun Protection products and information.

The ultimate UV-R and UPF Protection

Rainbow Shade, a leading shade products supplier for over 22 years, has specifically developed it's shade products to provide the Ultimate Shade Protection.

Great longevity

Tests prove Rainbow Shade Z16 is Australia's best performing shade fabric for UV-R Protection and longevity over 10 years.

The tests evaluated the UV-R protection, shade and structural strength of a 10 year old sample.

Tested to Australian Standard AS 4174 - 1994

THE RESULTS: After being stretched and tensioned on a shade structure for 10 years the fabrics ability to still provide 94% UV-R protection is outstanding! Rainbow Shade Z16 fabric remains strong and durable offering peace of mind and value for money!

Rainbow Shade Z16:

Quality fabric truly stands the test of time.
