## Wallaroo Sails Survive Wild Storms

After the recent storms affecting Adelaide and South Australia, we wanted to check the performance of Z16 especially how it provides excellent solar protection when used in large shade sails. The manufacturer and installer – Undercover Agents have shown the quality workmanship with this Wallaroo shade sail installation weathering high winds and storm water surges

After being subjected to up to 90 Km/H winds and huge storm surges, as you can, pictured right, these Z16 shade sails can sure take a beating.

Calm after the storm
