15 Year Weather Endurance Test

Proven To Endure

Z16 digital scan of fabric test sample

WWW.RAINBOWSHADE.CO.NZ

A 15 year endurance weather test conducted by Rainbow Shade confirms the outstanding durability, UV protection, lasting strength and colourfast characteristics of Z16 shade fabric.

Rainbow Shade submitted fabric samples to two independent accredited testing agencies. Breaking force, tear resistance and UV protection tests were conducted. The results which came back from the 15 year old fabric testing are remarkable.

"15 Year old Z16 fabric conquers the harsh Queensland climate, installed in the Brisbane

15 Year Weather Endurance Test Results:

- The tests revealed the fabric was extremely strong, still having slightly less than 80% of its original strength in the warp.
- The tests revealed the fabric was still providing very high protection at 95.1% UVR Block.

(Tested to Australian Standard 2001.1.3.1-2001 and 4174-1994)

Rainbow Shade Z16 fabric can confidently claim durability, lasting strength, exceptional UV protection and colourfast characteristics due to the

Endurance

Only the highest quality UV inhibitors are used, creating a fortified UV stabilisation system which fights solar degradation to keep fabric strong and stable over long periods.

Quality

Made from the highest quality HDPE materials, Z16 undergoes numerous inspections to meet rigorous quality standards.

Warranty

Rainbow Shade Z16 shade fabric remains durable and strong well beyond the manufacturer's 10 year warranty.

Protection

The tight protective fabric design using monofilament with UV tape construction produces the highest UV Protection - up to 99% UVR Block (50+ UPF Rating).

Colourfast

Highest quality pigment colorants provide outstanding resistance to pigment deterioration.

Reputation in Australia & Worldwide

Z16 is a worldwide leading brand available in 60 Countries. In Australia Z16 is a market leader due to its superior performance record.
